"Set random min tasks"	Set a minimum number of tasks to do next month (between 2 and 11, or higher in hardcore mode) and lock your settings until the 1st of the next month. If settings are already locked, the value will only change if it is higher than the current one.

With another player

"user denial"	Adds time to another users denial e.g. "user denial hotbody:2 hours" will add 2 hours denial to user hotbody - but watch out it also add the time to you!
"give mood"	Gives a specified number of mood points to another user e.g. "give mood hotbody:20" will remove 20 mood points from you and add them to user hotbody. You can't give more mood points than you have.
"msg USERNAME:Message text"	Sends a message to USERNAME. Note You can't use with the NOAI keyword and your message should not include any extra ":".
"broadcast:Message text"	Displays a message to all online uses for 1 min.
"question:[Question]"	Displays [Question] with yes and no buttons till at least 1 online users respond. Each vote is recorded in both peoples msg stream.
"question:[1-9]:[Question]"	Displays [Question] with yes and no buttons till at least specified users have responded with yes or at least specified users have responded with no (e.g. if number is 4, will stop only when 4 people have said yes or no, not say 2 of each).

Most Keywords are not caps sensitive.

External mistresses can also use the following keywords (some of these may work for users as well e.g. if you wish to inform Jennifer that you are locked in chastity for for 2 days) do..

(value can be anything but will not set if less than current value)
(mood can only be reduced for now)
(this will add another 2 days to any existing sentence)
(this will add another 2 hours and so on to any existing sentence)
(same deal)

External mistresses can also trigger remote devices or take pictures - In time external mistresses will
