## **Audio Controlled Devices**

The easiest (but not the cheapest) way to have Jennifer remotely control a device is to get an audio controlled estim such as:

http://store.e-stim.co.uk/index.php?main\_page=product\_info&cPath=23\_27&products\_id=2

Simply plug it into the headphone socket of your computer or phone (you may want to switch off notification sounds ①) and select an e-stim controlled by audio in your options.
