```
Title: Celebration
Sex: Male T
Require: cancum gag
Limits: Cum
image:img/1488261123.dat
show:Well hello, there. Welcome back. Strip and wait with your hands behind
your back while I bring up my notes. Hmmm.
settemp1:(Math.max(Math.random()*60,20))
wait:TEMP1
image:img/1488261133.dat
show:Good news! It looks like you're allowed to cum! I think we should
celebrate, don't you? Of course you do. Now go fetch your gag like a good
little slave.
button:Done
show:Now put it on.
button:Gagged
show:Very good. I'll just snap a picture...
cam:1
wait:3
show:Very good. I'll just snap a picture... and there we go. Perfect.
wait:3
show:I like the way it makes you look...
wait:2
show:I like the way it makes you look... well...
wait:2
show:I like the way it makes you look... well... controlled.
wait:3
show:But today isn't really about the gag. I haven't forgotten the cum I
promised you.
button:Thank you, Mistress.
show:As you might have guessed, there's a twist. You are going to cum on
your own face, and then you are going to snap a picture for me. It'll make
quite the addition to my collection.
button:Yes, Mistress.
show:Here's a gif for inspiration. I can't be there to pound your ass while
you're at it, but I'm sure you'll manage. Prop yourself up on a wall, a bed,
anything you have handy, and shoot a load of goopy white cum all over your
face for me. While you masturbate, I want you to imagine what your picture
will look like. Also think about what you would do to keep it private,
because it won't really be your picture, it will be my picture ;)
image:img/1488261141.dat
button:Take Picture
show:3...
wait:1
show:3... 2...
wait:1
show:3... 2...
wait:1
shot:3... 2... 1...
wait:1
cam:2
```

```
image:img/1488261123.dat
show:Be honest now, did you manage to get visible cum on your face?
choice:Yes,No," style="display:none
if:(LASTASK==2)
show:It is good that you are honest, but I can't let disobedience go
unpunished. You are to report for a punishment at once.
finish
fi
show:Very good, slave. You aren't done yet, though. I want you to stand in
front of the camera and wear your cum on your face for the next few minutes.
Keep the gag in too. I'll be taking a picture at random and I expect to see
both of them still in place. Breathe in the smell and think about what you
just did while you wait.
settemp1:(Math.max(Math.random()*60*6,60))
wait:TEMP1
cam:3
finish
; There's another task I have in the works that could really benefit from
being able to store persistent state. Is that a planned feature?
; Thanks for all the hard work putting together the framework for all this.
There really have been scandalously few user-submitted scripts, just want to
do my part.
