```
Title:chastity_validate
Sex: Female T Male T Trans T
Require: chastity
Limits:
;Task to validate that slave is still locked up. To be run while the slave
is in chastity. Created by thomas
;
;  ****************************************************************************
; NOTE TO TASK DEVELOPERS. It is strictly forbidden that you write other
tasks that read or modify variables from the users store, such as
chastityTagNumber.
; This is to prevent you from modifying your chastity status with test
tasks.
; NOTE that if you break this rule, and you are caught, your mood will drop
to zero and very likely you WILL BE EXPOSED
; You have been warned
;  ****************************************************************************
;
; Variable table -
; TEMP1 == Type of locking mechanism. Values 1 through 5. Stored in
chastityLock persistent variable
; TEMP2 == number printed on one-time lock or tag. Loaded from
chastityTagNumber persistent variable
; TEMP4 == random control number to be shown on pictures
; TEMP5 == Time in seconds when chastity was started. Loaded from
chastityStartTime
; TEMP7 == unlock_pending flag from JIC server
; TEMP1, TEMP2 and TEMP3 are also used in various places to load persistent
values
;
; Persistent variables -
; chastityLock                        == Type of locking mechanism. Values 1
through 5
; chastityTagNumber                   == Number printed on one-time lock or
tag
; chastityStartTime                   == Time in seconds when chastity was
started
; unlock_pending                      == Flag from JIC server that user
message board is blocked until this task has been called
;
; Local variables -
; lockType            == Type of locking mechanism chosen by slave. Values
1 through 5
;
;
;
; ********** check if task is run while slave is not in chastity (note:
validation is possible while unlock is pending)
loadtemp1:chastityStartTime
settemp5:'TEMP1'
if:(('TEMP5' == '')||('TEMP5' == 'undefined'))
```

```
    image2:taskimg/tasks/chastity/bdsmlr-42033-LHncBdsw27 (Mittel).jpg
    show: Thanks for running the task, but you are no longer in chastity.
Perhaps its time to get locked up again?<br><br>Anyhow, just to entertain
me, I want you to take one picture of your free and therfore unhappy
genitals.
    button: Take picture (5 seconds delay)
    wait:5
    cam:
    log:Slave is not in chastity. Just one picture will be taken.
    peerreview:false
    ; setmood:(MOOD-2)
    goto:exitTask
fi:
;
; ********** load persistent and environment variables
loadtemp1:chastityLock
assign:lockType:TEMP1
loadtemp2:chastityTagNumber
;
; ********** Provide initial information to reviewers
log:Slave is being validate to be in chastity. As a reviewer you are asked
to help validating that the slave is still properly locked up, and had no
chance to cheat. Please do NOT hesitate to mark the task as FAILED if you
have doubts. A mod will look at the situation in that case and decide what
to do next. Chastity enforcement should be taken serious in JIC. Thank you
for your help.
wait:1
if:('CHASTITY_DESC' != '')
    log: Slave has provided the following information to validate that it's is
not cheating. CHASTITY_DESC
fi:
;
; ********* Give slave a chance to confess if he did cheat
