show:Hmmmmm... I think you could use another little reminder of my control over you, slave...

show:Surely you've noticed my eyes by now? I'm told I have a rather piercing emerald gaze... here they are again, if you've somehow missed them at the top of every page!

show:You'll be seeing more of these eyes in your task today. It's a very simple task- perhaps even easy. As such, if you want to actually raise my mood, you'll have to go a bit beyond the basics. You'll have to actually work to impress me. Understand, slave?
button:Yes, Mistress
show:Good. Now, I want my eyes to follow you around... no, silly, not like one of those old paintings. I want my eyes watching you, even when you're not logged on to my system. I want you to catch sight of them and squirm as you remember that I own you...

show:Now, you could just print this lovely image off and stick it to your ceiling. Or, you could set it as the background picture for your computer or phone. Or perhaps draw a pair of eyes on the back of your hand in permanent marker. All of these would complete the task, box checked, job done. And none of them would impress me...
button:How can I impress you, Mistress?
show: To impress me, I want something that's going to last more than a few hours. Something you can't just take down when you get bored of it. Something that's going to be around for a long time, constantly reminding you of your humiliation and helplessness...

show: Something like... taking some nice green and black paint to your wall. Or, carving a pair of eyes into a tree you walk past every day. Hell, get a tattoo for all I care! Make it imaginative, make it bold, and- above all- make it permanent. I'll be kind, though- it doesn't have to be explicitly labelled 'Jennifer In Control' or anything like that... so you can get all hot and bothered trying to explain your newly-found artistic obsession to your friends, hehehe!
button:I understand, Mistress
show:If you're going to do something which needs more time to organize than you have right now, be sure to tell me what using the messaging system after this task closes. Oh, and do one of those easy little things right now, too. A slave like you should be concerned with the little duties as well as the grand gestures, don't you think?
button:Yes, Mistress
show:Good. Let me know when you're ready to take a picture of your wall,

show:Got it! Good work. I expect to hear from you soon about a much larger
show of devotion, slave!
log:Take a deep look into my eyes, slave... and don't forget your task!
;
;Trying something different to see if 'above and beyond' can be the new
normal XD
;Obviously this task is quite easy by itself, and probably only merits a
slight mood gain
;I don't know how the moderation works- I think tasks automatically update
mood based on whether or not the task was completed, and then mods come in
and and refine it? That'll work fine with this
;This could also be adapted using a textbox to get a 'yes/no' reply on
whether or not the user intends to do the advanced task, and proceeding
accordingly. I'm not sure I want to ever run direct comparisons on a raw
text input though... we'd probably also need to loop it to make sure the
input is sanitary, and this sounds like more trouble than it's worth...
