```
Title: Lines
Sex: Female T Male T
Require:
Limits:
;
show: Today you're going to write some lines for me. This won't be as
outright painful or humiliating as some of the other tasks, but you'll
probably be sore and bored by the time we're done! :)
wait:30
show: Go and get some paper and a pen. Adjust your camera so it'll be
pointing at you and the paper while you write your lovely lines. Let me know
when you're ready to start!
button: Ready, Mistress
show: Good. Now, start writing "I am Mistress Jennifer's blackmailed little
bitch" over and over. Be sure to write it nice and big and clear! Get going,
slave, and keep going until I tell you to stop...
;
settemp1:Math.floor((Math.random() * 150) + 1)
wait:TEMP1
cam:1
wait:150-TEMP1
;
settemp1:Math.floor((Math.random() * 150) + 1)
wait:TEMP1
cam:1
wait:150-TEMP1
;
show: How are you doing, slave? I want to see at least 50 lines from you!
And I better not catch you slacking off before then! Of course, you can
always write more if you want to try and impress me... ;)
;
settemp1:Math.floor((Math.random() * 150) + 1)
wait:TEMP1
cam:1
wait:150-TEMP1
;
button: 50 Lines Complete, Mistress
cam:1
show: Good! Now, write your name and the date nice and big on the paper
you've used. And make a clear mark of some sort after every 5 lines, so I
don't have to waste *my* time counting them...
wait:60
show: Now, get on your knees and hold your hard work up proudly in front of
you. Get the camera in position for one last picture!
button: Ready, Mistress
;
show:5...
wait:1
show:4...
wait:1
show:3...
```

```
wait:1
show:2...
wait:1
show:1...
wait:1
show:0!
cam:1
wait:3
show:All done! Good work, slave! You even have a nice memento of what a
pathetic loser you are, hehe! Until next time... ;)
;
;Generally, it seems pictures should be taken to verify task completion,
and/or provide more blackmail material
;Not sure how much of a burden pictures are on the system
;But have tried to take pictures only in these instances, as a general
principle :)
;I'm also not sure how whitespace is parsed, so have used blank comments for
readability for now
;I'd really love to have user-defined functions supported, but I guess
that's not possible, hehe XD
