;
show:Slave, I have a task in mind for your balls. I want to see just how
elastic they truly are.
wait:7
show:I want to conduct an experiment to determine the difference between
your balls when they're just hanging freely and when they're stretched down.
button:Gulp
show:Get a rope to tie around your balls and find something like weights or
another method to attach to the rope, stretching your balls downward.<br>
Additionally, take a ruler and a marker for making measurements. We need
accurate records.
button:Ready DTITLE
show:No clothes for this experiment. I want to see everything clearly. Strip
```

```
down and let's get started. <br>Don't keep me waiting.
button:Naked
;
;Slave is not in chastity, so a hard cock is required.
if:(!INCHASTITY)
  log:Slave must maintain at least a somewhat hard cock during the task.
  show:Your soft cock might be obstructing the view. Get hard now, I want
everything visible and clear. <br> Keep your cock hard the entire time. No
exceptions.
  button:Hard DTITLE
fi:
;
;Marking free hanging
show:First, we'll mark the position of your balls when they're hanging
freely. <br>Slave, draw a line on your thighs at the bottom of your balls to
mark their natural position.
button:Marked DTITLE
show:Move closer to the camera so we can take a picture for documentation.
button:Picture (10 seconds)
log:Picture below slave has marked the first position
wait:5
;cam:temp
;
;What method will the slave use for pulling
asktext:&quot;How do you plan to stretch your balls, slave? Will you use
weights, attach a rope to your feet, or employ any other method?
log:Slave is describing how he is going to stretch his balls 'LASTASK'
show:Prepare yourself and demonstrate the stretching method you intend to
use. <br>Step back and ensure at least your belly down to your feet is
visible in the picture. <br>No need to mark it yet.
button:Picture (10 seconds)
log:Picture below slave at least visible from belly to feet demonstrating
his stretching method
wait:5
;cam:temp
;
;Marking stretched hanging
show:Get closer to the camera and take your marker.
button:Ok DTITLE
show:When I say 'start' begin stretching your balls and mark the new
position on your thighs below the previous mark. Keep stretching until you
hear a bell.
button:Ready DTITLE
wait:5
show:<h2>Start
log:Video below shows the slaves balls are stretched down and he's marking
the lower position
;vidrec:0
wait:5
;vidstop:0
log:Picture below showing slaves stretched down balls with the second mark
```

```
visible
wait:5
;cam:temp
show:<h2>Stop
sound:bell.wav
wait:5
show:You may free your balls now before they fall off.
button:Free balls DTITLE
;
;Measuring
show:I hope for your sake that you stretched your balls hard enough and
there's a clear difference between the marked spots.
button:Yes DTITLE
show:Take one final picture with your ruler beside the marked spots to
ensure accurate measurement.
button:Picture (10 seconds)
log:Slave is measuring with the ruler beside the marked spots.
wait:5
;cam:temp
;Is the slave using inch or cm
show:Are you using inches or centimeters for your measurements?
choice:Inch, Cm
if:(LASTASK == 1)
    assign:unit:'inch'
    assign:convert: 2.54
fi:
if:(LASTASK ==2)
    assign:unit:'cm'
fi:
;The actual number
asknumber:What are the results of the measurement.(decimal point allowed)
assign:length:'LASTASK'
log:Slave claims the difference is $length $unit.
;
;Result and comment, currently 6cm for appraisal
if:($length * $convert) > 6)
    show:$length $unit.<br>...
    wait:3
    show:$length $unit.<br>I must say, I'm quite impressed with how much
you've stretched your balls. Well done.
    button:Thank you DTITLE
else:
    show:Only $length $unit.<br>...
    wait:3
    show:Only $length $unit.<br>I'm not entirely pleased with the result,
slave. The extension must be longer. Make sure you stretch harder next time.
    button:Sorry DTITLE
fi:
;
;End task
show:You may leave now, slave. Until next time
```

button:Bye DTITLE
