show:Now it is time to strip. I want you naked from your belly down. Keep your T-Shirt.

show:I hope you use a laptop or a webcam with a long cable as we now will head over to the bathroom. Step into the bath tube or if you just have a shower sit down in it. Place the camera so that I can have a nice look from above. That part can be a bit tricky especially if you have a build in webcam.
button: in the shower now
show: Good. You now have 5 minutes to have a pee. Aim up to your mouth. You don't need to open your mouth (except if you want it) but you should at least wet your T-Shirt.
