Weekly task for April 14 2017

Happy Easter, well at least for me... I thought it would be nice to have an Easter egg hunt so I've set you as denied for a number of days but every time you find one of my Easter eggs enter the code with it in the message system for a day taken from your time in denial I'm so kind lol. Remember you can only enter a code once and if you put more than one code in a message it will only count once.... happy hunting.
